Troubleshooting in Tablet Tooling Seminar 2013

This seminar is designed to identify and address common problems encountered during modern tablet production. We will discuss how elements of punch and die design, tooling specification and aftercare impact upon problems that can arise in production and how improved maintenance procedures can assist your business to decrease tablet press downtime.

Who should attend? - If you are a production manager, press operator or directly involved in tool maintenance then this course is for you.

The second day includes a series of workshops on multi-tip tooling, tablet design and tool polishing in addition to an overview of problem solving with steels and coatings.

The price for the training seminar is £595 which includes: 2 nights accommodation, 2 breakfasts, 2 lunches and 2 dinners including an informal welcome dinner on the evening of Tuesday November 5th and an evening event on Wednesday November 6th.

Attendees will also receive a **complimentary copy of The Eurostandard Educational Series** which is normally sold for £150

Transport to Nottingham is not included in the seminar, however I Holland will be happy to provide travel details upon request. For assistance or further information please contact:
