

# PharmaLube

## Non-Toxic Oils and Greases for Machinery Lubrication

The extensive I Holland PharmaLube range provides you with a complete system of non-toxic, FDA compliant oils and greases. These lubricants can be used for tablet presses, punches and dies as well as processing and packaging equipment.

### Key Features:

- Food grade and FDA compliant
- Non-toxic
- Full selection of products available for all types of applications (bearings, gear boxes, chains, air compressors etc..)
- MSDS documents available
- Product conforms to Kosher dietary laws

### Core Benefits:

- Machine component protection equal to or greater than that of conventional petroleum lubricant
- Lubrication performance within a wide temperature range
- Operating in all conditions and environments including those affected by mild chemical contamination
- Clean, colourless, odourless and non-staining requiring very minimal user precautions when handled
- Provides and maintains a high level of product performance and security where machinery lubrication is required

# Product Specification

PharmaLube

## Oils

Description	Usage	Viscosity	Quantities
Non-Toxic Oil - Geralyn RO 68 (The default choice for most automatic oil systems - also available in viscosity 22 and 32 for the same price)	General Purpose	68	1 US Gallon
Non-Toxic Oil - Geralyn AW 32 (Also available in viscosity 68 for the same price)	Anti Wear	32	1 US Gallon
Non-Toxic Oil - Geralyn EP 220	Extreme Pressure	220	1 US Gallon
Non-Toxic Oil - Geralyn SF 320	Synthetic Food Grade	320	1 US Gallon

The higher viscosity oils are used on enclosed gearboxes and speed reducers such as worm gear drives, heavy duty chain drives and heavily loaded bearings.

## Greases

Description	Usage	Viscosity	Quantities
Non-Toxic Grease - Geralyn G-C2	General Purpose	C2	400g Cartridge
Non-Toxic NTG-600 (previously Rustex C44)	Rust Prevention	600	1 US Gallon
Non-Toxic Grease - Geralyn AX-C1 (Also available in viscosity C2 for same price)	Ball and roller bearing grease	C1	400g Cartridge

The higher viscosity greases (higher the number, higher the viscosity) are used in more arduous conditions and have a higher water washout resistance.

## Cleaners

Description	Quantities
Non-Toxic Krystall Cleaner - General purpose surface cleaner and flushing agent	5 US Gallons
Non-Toxic Geralyn Krystall Cleaner - General purpose surface cleaner and flushing agent	1 US Gallons

Both cleaning products serve the same purpose but can be differentiated by the quantities in which they are available.

A complete range of products is available for all applications. We have listed our most popular product specifications above please speak to us if your requirements vary from those shown here.

**Please Note: If a non-toxic lubricant becomes contaminated by chemical, metal or other means it will, in effect, become as toxic as the product which has caused the contamination.**
