

STEP 06

BENEFITS

- ✓ Provides a protective layer
- ✓ Protects the tools from environmental effects
- ✓ Protects against corrosion
- ✓ Ensures tooling is ready for use when needed

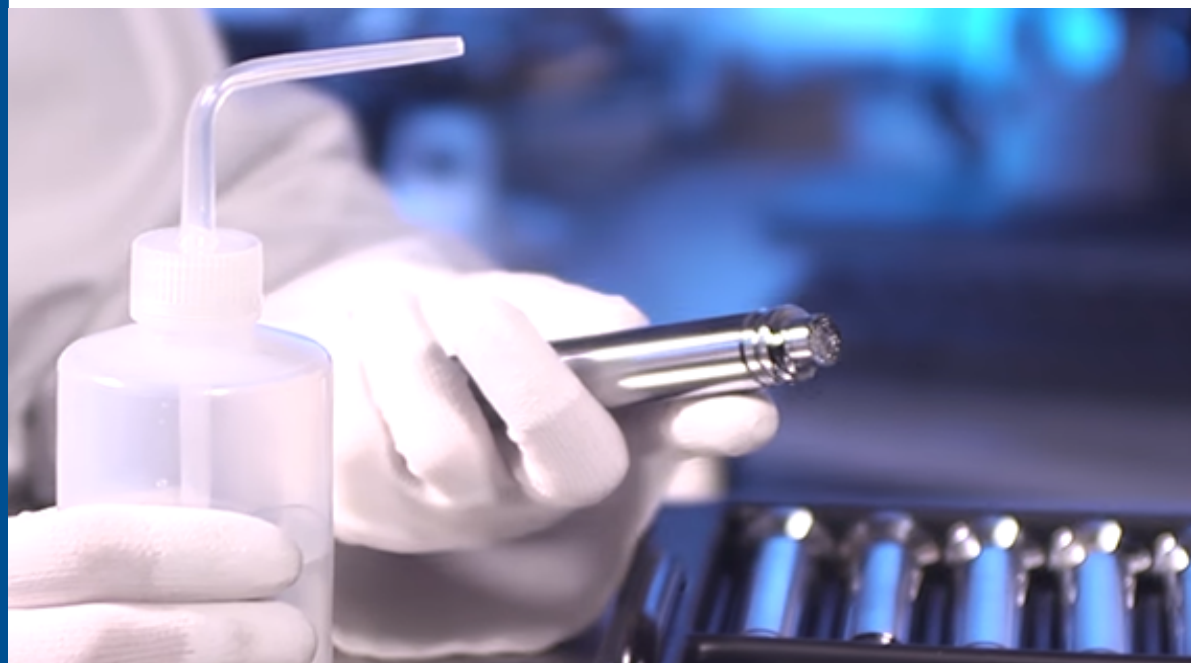

Oil & Grease

BENEFITS

- ✓ Protects from and prevents corrosion
- ✓ Preserves tooling
- ✓ Aids smooth operation
- ✓ Clean, colourless, odourless and non-staining
- ✓ Requires very minimal user precautions when handled
- ✓ Provides and maintains a high level of product performance and security where lubrication is required

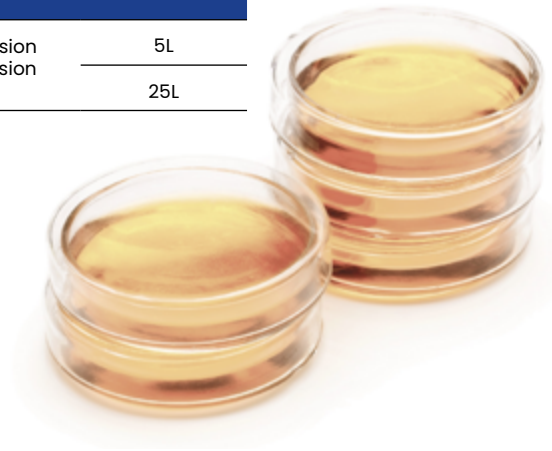

FEATURES

- ✓ Food grade and FDA compliant
- ✓ Non-toxic
- ✓ Appropriate selection of product for tooling applications
- ✓ MSDS documents available
- ✓ Products conform to Kosher dietary laws
- ✓ Oils recommended for short term storage due to their low viscosity
- ✓ Synthetic, vegetable and mineral oils are most common forms
- ✓ Greases recommended for long term storage due to high viscosity
- ✓ Greases will adhere to the tool for a long period of time giving greater protection

OIL

Part number	Description	Usage	Quantities
HEOG-NT021	Food grade oil - FS HYD OIL68	General lubrication and corrosion protection for tablet compression tooling	5L
NEOG-NT022	Food grade oil - FS HYD OIL68		25L

GREASE

Part number	Description	Usage	Quantities
HOEG-NT025	Food grade grease - FS EXTRA	Longer term storage	400g cartridge

CLEAN

Part number	Description	Usage	Quantities
HOEG-NT010	Food grade cleaner - FS Ease - Trigger spray	Food safe penetrating and cleaning lubricant with added corrosion protection	500ml
HOEG-NT011	Food grade cleaner - FS Ease		25L
